Projects

The Bakery Shop

- Developed a full-fledged e-commerce website using MERN Stack (MongoDB, ExpressJs, ReactJs, NodeJs).
- This website contains a home screen, product screen, shopping cart, login page, admin-panel and vendor-panel.

Portfolio Website

- Developed a Weather app using HTML, CSS, Tailwind, and JavaScript.
- Developed my responsive portfolio website which consists of my Personal Details along with my other projects descriptions and links.

Weather Application

- Developed a Weather app using HTML, CSS, Tailwind, JavaScript, and Open Weather API.
- In this app, we can show weather based on the user's location and user input.
